

CATOWHITE BSU LIQ.

Technical Specification

C.I.. No.	: 264
Chemical Composition	: Derivative of 4, 4'-diaminostibene 2, 2' –disulphonic acid
Appearance	: Pale Yellow Clear liquid.
Ionic Character	: Anionic
Solubility	: Freely miscible
Specific Gravity	: 1.12 + – 0.1
Stability	: CATOWHITE BSU LIQ. is stable upto 12 Months at all ambient temperatures.

CATOWHITE BSU LIQ. is an exclusive optical whitening agent for paper surface coating applications for to neutral sized paper.

APPLICATION:

CATOWHITE BSU LIQ. is recommended to add either after the complete preparation of coating mixture. It is suitable for co application bleaching in cotton. It is bluish violet to neutral paper & pulp. Good for addition in polyamides in 6 & 66, wool. It gives excellent results in padding/ resin finish, process or pad, thermosol process.

CATOWHITE BSU LIQ. is very much useful in developing the high brightness in paper / textiles containing very high level of fluorescence of International shades where higher dosage of OWA is required in surface coating application.

All Stock solutions of OWA are very sensitive to light.
